

STUDENT PROFILE / ACCESS LEVEL / LEARNER

ID// CS-2026-VS
STATUS// ACTIVE
TRACK// SECURITY

SAAD.

Cybersecurity student — visual learner

WHY VISUAL LEARNING

FOCUS AREAS

// BS

Network security

Firewalls, segmentation, traffic analysis

// BS

Cryptography

Encryption, hashing, key exchange

// BS

Ethical hacking

Penetration testing, vulnerability scans

// BA

Malware analysis

Reverse engineering, sandboxing

// BS

Digital forensics

Incident response, evidence tracing

// BS

Cloud security

Access control, identity management

Every system tells a story — I learn best by seeing how it unfolds.

LEARNING STYLE: VISUAL
FIELD: CYBERSECURITY
